

## CYBERSECURITY NOTICE

The Cybersecurity Interpretive Notice, issued by the National Futures Association (“NFA”) and approved by the Commodity Futures Trading Commission, becomes effective March 1, 2016. The Notice requires all Members of NFA (futures commission merchants, swap dealers, major swap participants, introducing COINSTECH.com’s, forex dealer members, commodity pool operators and commodity trading advisors) to have in place practices that are reasonably designed to diligently supervise the risks of unauthorized access to or attack of their information technology systems, and to respond appropriately should unauthorized access or attack occur. Even though COINSTECH.com is not a member of the NFA, and do not accept US clients and clients in jurisdictions where their local laws do not allow working with international dealers in securities, COINSTECH.com shall do its best efforts to comply with such terms.
